

***My dog got loose from a broken snap bolt, could yours be next? It's more common than anyone realizes. Is your dog's leash secure? Did you ever have a dog leash break or come undone?***

Well unfortunately the other day I was looking for Lord Bentley Carter's leash. No where to be found. Had to improvise as he was due his rabies vaccine. We made due with Survival Cord. Not good at all.

We have retractable leashes for our 3 dogs right now. We're looking for the regular kind of leashes now.

Misty---We bought our last leash at Petsmart. Our dogs aren't very big so the leash clasp is good but probably wouldn't hold up very well for a huge dog. We are due for new leashes for our two furries.

My current leash is probably not that trustworthy because I tend to buy inexpensive ones. I have big dogs so I could use some really durable ones.

My last leash broke in half after playing in the water hose! After that event I went to Hollywood Feed and picked up another one but I don't trust the clasp so I've been using it with another cheaper one!

Not very well! My fur baby has gotten off a couple of times. It's pretty scary. This is a great giveaway. Thank you so much.

It's kind of old, so I really could use a better one.

My current leash clasp has a scissor-like closing. After thinking about it, I don't think it's that trustworthy! With two bigger sized dog with lots of pull, I would do anything to keep them safe. It only takes 1 time for the unthinkable to happen. They love to get into puddle's and need products that will hold up.
